

Kulturista

Definition

Kulturista is an unmistakeable linear slab serif typeface with pronounced rectangular serifs. The drawings are based on the sans-serif Nudista typeface, and Kulturista also inherits Nudista's distinctive narrowed character proportions, range of weights and glyph sets. Kulturista is definitely a good choice for a headline typeface for magazines and book covers. The range of boldness can come in handy when editing sections, headlines and supplements. The typeface understandably proves itself as a healthy foundation for a unified visual style, and holds up at display sizes as well as on shorter texts.
